Valona of North: Antler jewellery

Valona is inspired by northern landscape. It can be seen in our new design. Antler earrings and necklaces are made out of birch plywood. The smaller earrings and pendant are 3,4cm high and the bigger ones are 5,3cm high. The small necklace can be adjusted with a lock from 43 to 48 cm. The big necklace has 72cm long chain. Earring hooks are silver, the chain is nickel free metal.

VALONA

At Valona, we make feather-light wooden jewellery, birch himmelis and seasonal decorations such as tree toppers. Valona was founded in 2006 by designer Elina Mäntylä. We have been a limited liability company since 2018 when Markus Vihottula joined the company. Our office is located in Marjaniemi, Helsinki, but the design work travels with us in the archipelagos and the mountains of Lapland. We employ 2-5 employees, depending on the season, directly or through subcontractors across Finland. In addition to aesthetics, we value ecology. Birch, therefore, is the right choice of material for us.

Our products are available in approximately 50 design and gift shops around the world. We strive for international growth because we believe in our products and want the ideology of ecological and responsible design to be accessible to anyone interested in Nordic design.
